## Stabilizer For COMPLETE HOUSEHOLD

### MAINLINE SERIES

**BLUEVOLT's** Mainline Stabilizers are Smartly & technically Designed to take care all the appliances in your home & Office environment having different loads. Our general Household Model Capacity starts from 3 KVA Load to 15 KVA load adequate for all home appliances.

### FEATURES

- Latest Microprocessor Based Circuit
- High Cut & Low Cut Off Protection
- Inbuilt Double MCB's
- Thermal Overload Protection
- Inbuilt By-Pass Feature
- Inbuilt Time Delay Relay (TDR)
- Power Saving Technology
- Warranty - 3 years

Models: BVM390, BVM590, BVM7.590, BVM890, BVM1090  
BVM510, BVM810, BVM1010, BVM1530

## Stabilizer For AIR CODITIONERS

### AIR CODITIONERS ( 1.5 Ton )

**BLUEVOLT's** Stabilizers are supplying the ideal power needed to run your air conditioner at full performance level, this voltage stabilizer is ergonomically designed to maximize its cooling capacity Statistic Nachhilfe. Built-in protection features are universally compatible with all brands of stabilizers ac 1.5 ton to shield them from power surges and lows.

**Models: BV470, BV450, BV430, BV410, BV490**

### FEATURES

- Latest Microprocessor Based Circuit
- High Cut & Low Cut Off Protection
- Thermal Overload Protection
- Inbuilt Time Delay Relay (TDR)
- Power Saving Technology
- Warranty - 3 years

### AIR CODITIONERS ( 2 Ton )

**BLUEVOLT's** Stabilizers has the widest range of Air Conditioner Stabilizers ranging from as low as 90V input to 170V input providing a stabilised output to your Air Conditioner.

### FEATURES

- Latest Microprocessor Based Circuit
- High Cut & Low Cut Off Protection
- Thermal Overload Protection
- Widest & Genuine Working Range
- Inbuilt Time Delay Relay (TDR)
- Warranty - 3 years

**Models: Bv450, BV430, BV410, BV490**

# Stabilizer For HOME APPLIANCES

## Refrigerator

A Frequent And Sudden Re-starting Of Your Refrigerator During Inconsistent Voltage Supply Can Cause Damage To Its Compressor. **BLUEVOLT'S** Refrigerator Stabilizer Has An Advanced Time Delay System That Will Protect The Compressor By Intelligently Delaying The Voltage Supply To The Compressor As Well As Stabilising The Voltage Fluctuations.

Models: BVM0590, BVM190, BVM0530, BVM0130, BVM0510

## FEATURES

- Latest Microprocessor Based Circuit
- High Cut & Low Cut Off Protection
- Thermal Overload Protection
- Widest & Genuine Working Range
- Inbuilt Time Delay Relay (TDR)
- Power Saving Technology
- Warranty - 3 years

## SERIES FOR ( WASHING MACHINE & MICROWAVE OVEN )

Microwave Oven & Washing Machines Are The Most Commonly Used Home Appliances In The Cities In The Current Era. **BLUEVOLT'S** Stabilizer Has Designed An Intelligent Stabilizer Specifically For Microwave Ovens & Washing Machines Which Will Protect Their Components From Sudden Voltage Fluctuations.

## FEATURES

- Latest Microprocessor Based Circuit
- High Cut & Low Cut Off Protection
- Thermal Overload Protection
- Widest & Genuine Working Range
- Inbuilt Time Delay Relay (TDR)
- Warranty - 3 years

Models: BVM290, BVM230

The Power of Trust

“A **Complete Range** of all  
**Voltage Stabilizer**  
under one **Roof**”

#### WHY US?

- Best competitive prices.
- 3 years replacement Warranty.
- Durable & long lasting.
- Delivery & service on time.
- Elegant design with latest technology.
- Fully solid-state circuit with quality components.
- Fully automatic, requires no routine maintenance.
